

LIFE RUNS ON ENERGY®

Energy Efficiency Pays

Tampa Electric's **FREE Energy Audit** has helped hundreds of area businesses save money on electricity. Whether your business is large or small, we can evaluate the energy-consuming equipment at your facility. As part of our inspection, we'll recommend low- and no-cost practices that have a quick payback for your investment. We'll also suggest more capital-intensive measures that may have a longer payback period, but could qualify for rebates through our other programs.

Tampa Electric also offers a more **Comprehensive Energy Audit**. The comprehensive version complements the free Energy Audit by addressing concerns about the operation and costs of specific equipment. Based on the results, recommendations are made including estimated demand, energy savings and a simple return on investment. Fees for the Comprehensive Energy Audit range from \$15 to \$75 depending on your electric rate schedule. Some on-site monitoring may be needed. For complex evaluations, additional charges may be required to perform the audit.

Earn bigger profits with less energy.

More Bottom-Line Energy-Saving Programs

Results from your **Energy Audit** may prove that your business could benefit from some of Tampa Electric's other bottom-line energy-saving programs. One of our energy analysts will identify areas where your business could be more energy-efficient and recommend some of the following programs that could help:

Commercial Cooling Rebate Program – Earn a rebate and help reduce your energy costs when you add or replace old cooling equipment at your facility.

Commercial Lighting Rebate Program – Earn a rebate when you upgrade the permanent lighting at your facility. Conditioned or non-conditioned space lighting systems, along with hardwired compact fluorescent fixtures and LED exit signs, may qualify.

Conservation Value Program – Offers rebates for implementing conservation measures that primarily reduce consumption during peak-demand periods.

For more information about these and other energy-saving programs, visit **tampaelectric.com** or call us at one of the numbers listed below.

Hillsborough County **(813) 223-0800**

Polk County **(863) 299-0800**
