VERIFICATION RESULTS

Office/Field Yes No

Date _____

Tampa Electric Representative (Print) _____

All windows must be replaced and be labeled by the National Fenestration Rating Council (NFRC) as achieving a Solar Heat Gain Coefficient (SHGC) of $\leq .40$ and a U-Value of $\leq .65$. If window performance is in doubt, customer has the burden of proof in verification of window performance. Only one incentive payment will be issued per home. **To qualify for incentive, all windows must be replaced.**
