TAMPA ELECTRIC

Tampa Electric is here to serve you

tampaelectric.com

As part of our efforts to upgrade our customer service systems this hurricane season, we're now offering a dedicated telephone number for reporting power outages.

To report a power outage quickly in your area, call our new, automated system toll-free, 24-hours a day at:

1-877-588-1010

The system will match your primary telephone number or account number to our records to quickly and automatically report your outage and offer an estimated restoration time frame.

Remember to keep your phone number current and your account number handy.
